

PRO Beads Max CLASSIC-H

Patent Micro Beads of Cross-Linked Hyaluronic Acid Dermal Filler for body use with Lidocaine

Format: 10ml x 1

Applicable only by a specialized professional

A unique cross-linked technology consisting of some microbeads of Hyaluronic Acid.

Professional Korean Product

Detailed Description Beads Max CLASSIC-H 10ml x 1- HA Dermal Filler

Beads Max™ Classic-H is a Korean injectable dermal filler (DVS / Mono-phasic Type) that applies the unique technology of creating a semi-solid state gel of Hyaluronic Acid and increasing longevity (long-lasting) effect, safety and removability (safe & removable) in order to produce the most ideal product. It offers a temporary improvement for the facial wrinkles of adult through

physical recovery by injecting bridging hyaluronic acid, including lidocaine (Beads Max™ 1ml), into the skin.

Beads Max™ fillers are professional Korean products, proven for their safety and high quality. The key to the uniqueness of these fillers is the manufacturing method that follows a 3-stage cross-linked technology (MCL), which leads to a long-lasting effect.

Product Specification Composition

Sodium Hyaluronate Gel

Hyaluronic Acid: 20 mg/ml

Lidocaine Hydrochloride: 3mg/ml

Type: HARD (Equivalent to "Volume" of normal HA fillers)

Indications
