**Format: 4ea/ pack**

A revolutionary new treatment in the world of aesthetics. Newly produced collagen and elastin help to regeneration and restoration of the young face.

Professional Korean Product

Detailed description Hermosa Thread MILD

**HERMOSA Thread** made of PDO (Polydioxanone) thread is a revolutionary new treatment from Korea in the world of aesthetics. After insertion of the Threads, humane immune system reacts to it and starts to create collagen and elastin. Newly produced collagen and elastin will help to restore the young face.

**HERMOSA Thread MILD** is the fastest and most effective way to get rid of the Marionette lines. The new model with Bi-directional cog inside of the needle and dense coiled cog outside stimulates two times more collagen production. MILD threads are officially CE certified and designed for thin & thick skin, providing the perfect lifting that eliminates forehead wrinkles.
