PDO (Polydioxanone) thread- A revolutionary new treatment in the world of aesthetics.

Format: 20ea/ pack

A revolutionary new treatment in the world of aesthetics. Newly produced collagen and elastin help to regeneration and restoration of the young face.

Professional Korean Product

Detailed description Hermosa Thread SOFT Screw

HERMOSA Thread made of PDO (Polydioxanone) thread is a revolutionary new treatment from Korea in the world of aesthetics. After insertion of the Threads, humane immune system reacts to it and starts to create collagen and elastin. Newly produced collagen and elastin will help to restore the young face.

HERMOSA Thread SOFT Screw is officially CE certified, absorbable and safe to use. The high stimulation of collagen helps to achieve the tightening effect.
