PDO (Polydioxanone) thread- A revolutionary new treatment in the world of aesthetics.

Format: 20ea/ pack

A revolutionary new treatment in the world of aesthetics. Newly produced collagen and elastin help to the regeneration and restoration of the youth in the face.

Professional Korean Product

Detailed description Hermosa Thread SOFT Mono

HERMOSA Thread made of PDO (Polydioxanone) thread is a revolutionary new treatment from Korea in the world of aesthetics. After insertion of the Threads, humane immune system reacts to it and starts to create collagen and elastin. Newly produced collagen and elastin will help to restore the young face.

HERMOSA Thread SOFT Mono is officially CE certified, absorbable and safe to use. The high stimulation of collagen helps to achieve the tightening effect.
